

# Year 5 Home Learning Menu

## Summer 2023

### Due in on a Monday

1. Something has gone missing from PHJS, you are the main detective on the case. Design a poster for the local police station.

2. Go to <https://www.skillsbuilder.org/homezone>. Scroll down to 'Skill challenges' and pick one of the challenges to do based on a particular skill.

3. Complete a book review of one of the myths you have read this term.

4. Create a comic strip or short story which demonstrates the value of being reflective.

5. Write a short story based on a civilian from Ancient Greece travelling to modern day London.

6. Create a fact file for an ancient Greek mythological creature, God or Goddess

7. Create a shopping list for a summer party with a £100 budget.

8. Calculate the area and perimeter of five different rectangular objects in your home

9. Create a poster explaining how to multiply and divide by 10, 100 and 1000 using place value knowledge. Remember MLDR!

10. Create a mind map summarising all your Year 5 Maths learning.

11. Imagine you lived in Ancient Greece. Write a diary entry from the point of view of a child.

12. Create a poster explaining how gravity works.

13. Design and make a new building that could have been constructed in Ancient Greece

14. Research a scientist and produce a poster/information leaflet.

#### Other Weekly Home Learning Activities

- Daily reading recorded in the learning planner
- Learn multiplication and division facts – Times Table Rock Stars can be used for this
  - Maths activities on Mathletics
  - Home learning on Google Classroom

Weekly spellings – tested on a **Friday**
